

How to Post in the Friends Forums

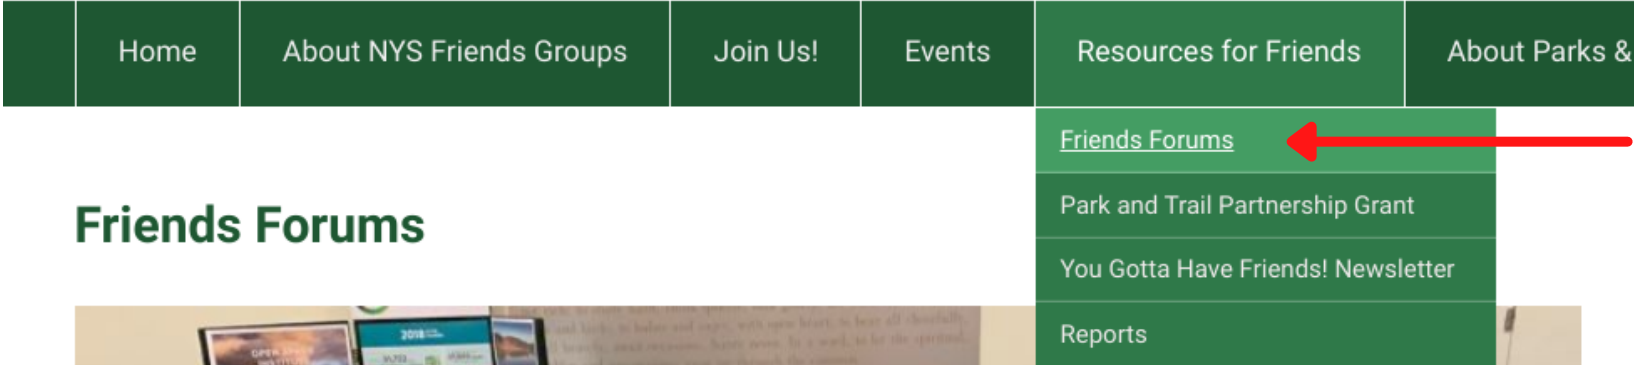

The Friends Forums are community discussion boards designed for Friends groups to connect directly on a wide variety of topics that are important to them, and their members.

Our Friends Forums not only allow members to ask questions, seek advice and provide updates and best-practices; they also enable groups to directly share documents, templates and resources which are then added to our growing resource library.

Step 1: login to the Friends Group Gateway

Step 2: On your member landing page, hover over the Resources for Friends then click Friends Forums.

Step 3: Click the "Join the Conversation in our Friends Forums" button.

The Friends Forums are community discussion boards designed for Friends groups to connect directly on a wide variety of topics that are important to them, and their members. With new forums being created all the time to meet the needs of New York State Friends groups, there are a myriad of ways to network with other organizations who are championing our precious public lands.

Our Friends Forums not only allow members to ask questions, seek advice and provide updates and best-practices; they also enable groups to directly share documents, templates and resources which are then added to our growing resource library! We all know that the best source of information and inspiration are our Friends and our forums make connecting easier than ever.
